Ottawa, Ontario, September 18th, 1940.

Second War Loan cash subscriptions Wednesday night totalled \$283,940,000, leaving \$16,060,000 to be subscribed before the total of money needed for war purposes is reached. Reports indicate a good response from coast to coast on the part of private Canadian investors, but many more small subscriptions are needed. Many private and Corporation subscribers have increased their earlier subscriptions. Banks have indicated that more people are taking advantage of the special borrowing facilities available for purchasers of second War Loan bonds.

So Long As Britain Stands

(Christian Science Monitor)

So long as Great Britain remains
unconquered hope remains for a real
peace which will release Europe—
including the German people—from
the prison of totalitarian terror.

While Britain stands France,
Belgium, the Netherlands, Norway,
Denmark, Poland, Czechoslovakia,
are only temporary slaves.

While Britain stands there is hope
for a genuine "new order" under
which some sort of self-governing
federation will preserve the liberties
of small nations.

While Britain stands there is a
chance to stop the trend toward
utter lawlessness and anarchy
which today spreads the threat of
robbery and violence around the
world.

While Britain stands there is
hope that the ideals of Christianity,
liberty, justice, enlightenment and
tolerance will have free opportunity
to develop.

While Britain stands paganism,
despotism, injustice, imposed igno-
rance and calculated intolerance will
not have official sanction by the
dominant governmental power of
Europe.

While Britain stands Japan,
Russia and Italy recognize some
restraints.

While Britain stands the Monroe
Doctrine can hardly be seriously
menaced.

While Britain stands totalitarian
trade cannot coerce the markets of
the globe.

While Britain stands the United
States is not a democratic island in
a world dominated by dictatorships.

While Britain stands the oceans
are barriers to, rather than high-
ways for, aggressors.

While Britain stands "fifth col-
umnists" in America remain mere-
ly sizzling plotters, lacking great
military or economic support.

While Britain stands America
can spend some time on building a
two-ocean navy.

While Britain stands there is
time to debate preparedness in the
United States.

While Britain stands those who
fail to read the lessons of history
can say she is fighting her own
battle.

The World of Wheat

By H. G. L. Strange

Some persons persist in demanding that the Winnipeg "Futures" market should be closed. At the same time the Government is being urged to advance money to our farmers for the greater part of the wheat remaining unsold on farms. "Farmers in the past," it is justly contended, "have sold and received cash for the bulk of

their wheat by December 1st, and this amount of cash is badly needed in the fall so that farmers can pay their taxes and bills and buy food and clothing for their families to tide over the winter."

Those who would close the Exchange forget, however that this important function is precisely one of the valuable services long rendered to farmers by the "Futures" market; for innumerable buyers, through the medium of the Grain Exchange, have each fall, for the past 55 years, pur-

chased for cash the bulk of the farmers' wheat, and have held it, at their own risk, until the millers of the world in turn have taken it in a steady stream during the remainder of the year.

It is only now, when the war is temporarily disrupting so many world-wide functions, that the value of the services the "Futures" market has rendered to our farmers in the past, and can render again when the war is ended, is being fully realized.

Following factors have tended to raise prices:—Broomhall estimates the exportable surplus of wheat in the Argentine at only 15 million bushels—Grain crops in Greece are estimated to be 30 per cent below last year—Australian crops suffering from lack of moisture—Portugal recently took a quantity of Canadian wheat.

Following factors have tended to lower price:—Dominion Bureau of Statistics estimates the prairie wheat crop at 534 million bushels—Seeding of winter wheat has commenced in parts of the U. S. A. under favorable conditions—Russian harvesting operations are ahead of last year—It is reported that Germany will have a bumper crop of potatoes, beets and other root crops.

Civilian Holds Important War Post

Phillip A. Chester
Given High Rank
In Ordnance

One of Canada's most important war-time military jobs has just been given to an out-and-out civilian, which, in days not long past, would be considered a highly unorthodox thing to do. But this little war we are in is a civilian's war—a war of the common people fighting for all the things they think worth while, and when there comes into view a civilian who can do a certain military job better than the available soldier, it is very good business on the part of the powers that be to turn the job over to him.

That is why Phillip A. Chester, widely known as the North American General Manager of the Hudson's Bay Company, is now the assistant Master General of Ordnance of this country's army.

For some time Mr. Chester has been responsible for the operations and fortunes of the great Hudson's Bay wholesale and retail stores, and since the Ordnance Department is one that is largely concerned with store-keeping, he would seem to be the right man for the job. He will be responsible for all equipment and clothing of the fighting forces. Everything from tooth-brushes to trousers and tanks will come under his management, to say nothing of food for men, guns and machines and he must see that all these things are at hand when and where they are needed, and that

every item comes up to the standard required.

Mr. Chester served in the British Army during the last war. He enlisted in the ranks of the 9th Battalion, Kings Royal Rifles in August 1914 and served continuously in France until 1919 with the exception of two short periods when he was wounded. He was demobilized with the rank of Captain. In this war he will carry no military rank and wear no uniform, but will be one of that army of civilians whose work is so vitally important in maintaining the efficiency of our fighting forces. Mr. Chester joined the staff of the Hudson's Bay Company in 1923 and was appointed General Manager for all the Company's operations in North America in 1930.

Household Hints

Adventurous cooks like a bit of spice in their homemade jellies and jams. Cinnamon, cloves, nutmeg, and ginger are familiar waker-uppers. Or just to be different, two or three crushed cardamom seeds, a finely chopped blade of mace, or several whole allspice can be added to a favorite recipe.

Such herbs as sage, savory, thyme, Rosemary, and basil also blend particularly well with fruit flavors. Put a leaf in each glass before pouring jelly.

Here are two easy-to-recipes that are thoroughly foolproof. The extra short cooking time gives you two-birds-in-one glasses, and all the fresh flavor of the fruit. Add spice or herbs to taste.

Ripe Pear Jam

3 1-2 cups prepared fruit
4 1-2 cups sugar

1 box powdered fruit pectin

To prepare fruit, peel and core about 3 pounds fully ripe soft pears. Grind or crush thoroughly. Measure sugar into dry dish and set aside until needed. Measure prepared fruit into a 5 to 6 quart kettle filling last cup with water if necessary.

Place over hottest fire. Add powdered fruit pectin, mix well, and continue stirring until mixture comes to a hard boil. At once pour in sugar, stirring constantly. (To reduce foaming, 1-4 teaspoon butter may be added.) Continue stirring, bring to a full rolling boil, and boil hard for 1 minute. Remove from fire, skim, pour quickly. Paraffin hot jam at once.

Ripe Peach Jelly

3 cups juice
6 1-2 cups sugar

1 bottle fruit pectin

To prepare juice, remove pits from about 3 1-2 pounds fully ripe peaches. Do not peel. Crush peaches thoroughly. Add 1-2 cup water. Bring to a boil, cover and simmer 5 minutes. Place fruit in jelly cloth or bag and squeeze out juice.

Measure sugar and juice into large saucepan and mix. Bring to a boil over hottest fire and at once add bottled fruit pectin, stirring constantly. Then bring to a full rolling boil and boil hard 1-2 minute.

Remove from fire, skim, pour quickly. Paraffin hot jelly at once.

NEW "LIGHT UP AND LISTEN CLUB" SERIES

When the "Light Up and Listen Club" opens its door again over CFAC on September 23rd at 9:00 o'clock, it will be bright with the glitter of new stars.

The new Master of Ceremonies is an old and valued friend of radio listeners throughout the continent, Milton J. Cross. Generally recognized as the dean of announcers, Mr. Cross is as famous for his authoritative commentaries on the Metropolitan Opera broadcasts as he is for his deft and sympathetic touch in handling children's programs and other broadcasts in the lighter vein. Mr. Cross reveals his versatility in catching the exact mood of the "Light Up and Listen Club" meetings, he will call on artists whose success and popularity has made their names household words throughout the continent and even beyond.

Prominent on the talent roster, we find the "Reverberator". They have made no less than six tours of Europe in the course of which they sang for our present King and Queen when they were the Duke and Duchess of York, and for other members of the Royal Family.

Another newcomer to the Club, though no stranger to its membership is "Ramona", who starred for years with Paul Whiteman when the "King of Jazz" was at the height of his reign. We think "Light Up and Listeners" will also enjoy the work of Bill Johnson. He is a very personable young man who has crowded a great deal of experience into his comparatively few years of life. He is much in demand as an actor, though singing is his real job and it is his interpretations of popular songs that we are to hear when he attends the "Light Up and Listen Club".

Dancer: "What is the name of that piece they are playing?"

Partner: "I don't know. Let's ask one of the boys in the orchestra"

Dancer (to saxophone): "What's that you're playing?"

Player (halting for a moment): "A saxophone, lady, a saxophone!"

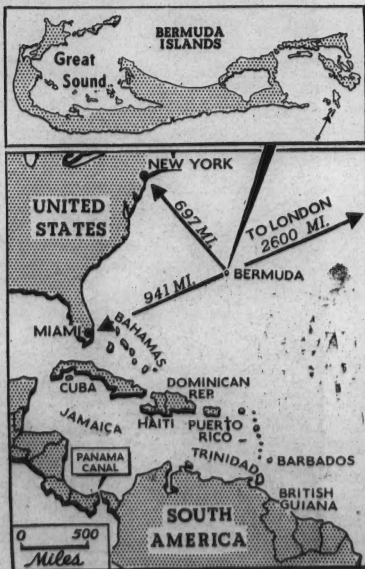

Tact, after all, is merely thinking of the point of view of others, considering others and saving the feelings of others.
